

## Involving service users and your families

It is important that we listen to your experiences.

### Your caseworker

A caseworker will offer to meet with you to hear your views, and to feed back our recommendations to you.

### Evaluation

You can complete a survey after your review.

### Families and Carers

If you wish, families and carers can have a copy of our recommendations. Where possible, a family member/ carer can attend your meeting with the caseworker. Caseworkers do not meet family members separately.

See our Involvement leaflet for more information.

## Who we are

The Pathway Development Service works to improve 'pathways' for people with personality disorder. We work with hospital and community teams to identify:

- When someone might need to go into a specialist or secure hospital and what they might need during their admission
- What alternatives there might be to hospital
- What someone might need in the community so they can move on from hospital

What we do	
We do ✓...	We don't X...
Review your care and treatment	Provide direct care or treatment
Make recommendations to your team about your care	Make diagnoses
Provide you with a summary of our recommendations	Make decisions about your mental health act status, or section 17 leave
Recommend a Housing and Resettlement Review at the right time on your journey	Recommend specific treatment units
Attend CPAs or provide re-reviews	Provide funding for placements
Keep your personal information confidential	Provide community services after you are discharged from hospital

## What happens and when

You can be **referred** to our service by your clinical team or case manager.

Our team will discuss whether a **review report** would be helpful for you.

### If a review is right for you

A member of staff from the Pathways Development Service will **meet you** and your team. This person is **your caseworker**.

We will think about **your needs** and how they could best be met.

Your caseworker will aim to complete a report within **3 weeks** of meeting you.

A **planning meeting** will be arranged.

Your caseworker will invite you to meet them to give you **feedback** and a **copy of our recommendations**.

### If you are in a Secure Unit or Garrow House

Following the review, your caseworker may attend your CPA meetings.

They may also carry out a **re-review** of your care after 12 months. This is to see how things are moving forwards with your care.
